

IBD AND FAMILIES: DISEASE EDUCATION AND THE ROLE OF NUTRITION

To help patients and families affected by inflammatory bowel disease (IBD) learn about disease education and the role of nutrition, the Children's Digestive Health and Nutrition Foundation (CDHNF) is hosting a new Webcast on June 18.

The Webcast is entitled, **"IBD and Families: Disease Education and the Role of Nutrition."**

A panel of healthcare professionals will discuss key issues related to IBD, including symptoms and diagnosis, nutrition and tips for working with healthcare providers. Additionally, three families affected by IBD will share their personal experiences and provide tips on how to cope.

All attendees are invited to ask questions of the panelists during the 20-minute question and answer session at the end of the Webcast.

We hope you and your family can join us on **Thursday, June 18, 2009** from **12:30 p.m. to 2:00 p.m. ET** for an educational event for the entire family.

To register visit: www.IBDWebcastReg.com

The Webcast is brought to you by the Children's Digestive Health and Nutrition Foundation and is supported by Shire plc.
